

FOREST EDGE

HOME IMPROVEMENTS

Windows • Doors • Conservatories
Orangeries • Replacement Roofs

About Us

We specialise in offering high performance double glazing and market-leading conservatories throughout the New Forest and in Lymington, New Milton, Hythe, Milford-on-Sea, Totton, Ringwood, Highcliffe, Beaulieu, Brockenhurst, Hampshire, Dorset, and surrounding areas.

DESIGN

We take care of everything so that you can sit back and relax. Skilled design teams will draw up plans with you on a wide range of products, quickly and efficiently.

PLANNING

You don't have to worry about seeking planning permission or worrying about hitting guidelines that have been set by conservation and heritage areas. We have years of experience cutting through red tape and providing modern solutions for all sorts of traditional buildings.

INSTALLATION

From us, you will receive a fully managed project from start to finish. The installation process will be quick, simple and stress-free, so there is little disruption to your daily life.

GUARANTEED WORK

We also offer an IWA insurance backed guarantee and deposit protection guarantee which gives our customers peace of mind. We understand that your home improvements are a big decision and investment, and do everything we can to make it a smooth process.

Our Installations

We have been improving homes and satisfying customers for over 30 years with our range of stunning conservatories, windows and doors.

Windows

Let the light in with our beautiful, bespoke windows. From hardwood frames to aluminium options, we have styles to suit every need.

Our high-end, high-quality windows are perfect for homeowners who want style and performance. They are made from the very best materials; our range will last for years.

For a truly traditional look, try our hardwood collection. We have been installing well-made timber windows for many years; by now, we are experts. All our hardwood windows are hand finished and scrutinised, ensuring only the best frames leave the workshop. For classic charm that perfectly suits your home, our collection can be finished to any colour. Despite their traditional style, these windows offer current levels of security, efficiency and ease. Treated, engineered, and multi-layered timber resists past problems of warping, twisting and sticking.

As an excellent alternative to our hardwood collection, we offer uPVC flush sash windows. These are sourced from The Residence Collection, who are unmatched in quality and authenticity. We are Trusted Residence Installers, meaning you are in safe hands. This style mimics the traditional joinery of timber profiles, creating the classic look of wooden windows in a lower maintenance material.

“SERVICE, QUALITY &

FINISH WAS

FIRST-CLASS.”

- TREVOR, HAMPSHIRE

We are proud to offer market leading aluminium windows in a wide range of colours and styles. These frames are strong and secure, while also boasting elegant, slim sightlines. Their slender design allows in more natural light and creates a clean finish, perfect for any home. For an eco-friendly, low maintenance window, choose our aluminium range.

THE
RESIDENCE
COLLECTION

Conservatories

With our design, survey and build package, creating a bespoke conservatory has never been easier. Get in touch with us today to find out more and begin planning your dream home.

Beautiful conservatories and orangeries are two of the best home improvements that you can make. They quickly add space, light and value. These open, airy and bright rooms are incredibly versatile; they can be used as dining rooms, lounges or even gyms.

We offer a full range of conservatory styles. These include ornate Victorian, minimalist Edwardian and grand Gable Ended designs. Our collection includes something to suit every taste, space and need. Lean-to conservatories are perfect for homes with restricted space. Alternatively, to make the most of larger areas, we can join multiple styles together. You can customise our conservatories with a range of colour and glass options. No matter what style, colour or glass you choose, all of our conservatories allow natural light to flood in.

If you are looking to add a sense of grandeur and increased privacy to your home, then our orangeries are perfect. These stunning structures have a higher brick to glass ratio than conservatories. The solid walls make them incredibly thermally efficient, while beautiful roof lanterns still let an ample amount of light into your home.

For your peace of mind, our conservatories and orangeries are highly secure. They feature multipoint locking mechanisms and resilient, premium hardware. Utilising cutting-edge designs from market-leading manufacturers, our conservatories and orangeries excel across the board. We use performance glass that keeps warmth in your home during winter. This insulating effect keeps the room cosy and comfortable in colder months. This glass also blocks excess solar rays to stop it overheating in the summer. Using performance glass ensures these spaces are the perfect places to relax, all year round.

Not quite sure what style of conservatory that you prefer? We're happy to provide suggestions to help turn your dream into a reality. Call us on 01425 541100 to speak to one of our experts.

Replacement Roofs

Transform your current conservatory, orangery or house extension with one of our exceptional replacement roofs.

Bring a worn-out conservatory or underperforming orangery back to life with one of our replacement roofs from Ultraframe. You can choose from the latest designs at the forefront of the market. The roof will be designed specifically to your postcode, ensuring that its structural integrity is never compromised by wind, snow or rainfall.

With solid and glass options available, there is a style to suit every home. Our Classic roof is fully glazed. This allows more light and enhanced views. With thermally-efficient top caps, modern weatherproofing and effective glazing, you won't have to worry about heat loss.

"A PLEASURE TO
DEAL WITH"

- LYNNE, LYMINGTON

Our Livinroof style is the lightest solid roof on the market. Its smart design means you can enjoy the warmth, strength and privacy of a solid roof, alongside the natural light and easy installation typical of a glass roof.

All of our replacement roofs are available with performance glass. As well as regulating the temperature of your home, it is also self-cleaning! The glass uses UV energy to dry and loosen any dirt that may have formed. There is also a coating that encourages water to sheet off, carrying the debris with it and leaving the roof looking like new. You can spend less time up ladders and more time relaxing.

Our team have a wealth of experience installing these superior replacement roofs. This expertise means that our service is first-class, every time.

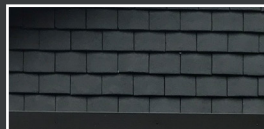

Solidor®

Solidor Composite Doors

Enhance your home with a stunning composite door. As Trusted Solidor Installers, we can fit them to enable their best performance. With thermal efficiency, durability and weatherproofing, there's no compromising on style or practicality.

Composite doors combine the best properties of different materials, to offer you the best possible style and performance. We offer a range of colours, accessories and designs. So, you are sure to find a look perfect for you.

With a 48mm solid timber core and multipoint secure locking, our composite doors protect your home in style. These doors are also incredibly durable and long-lasting. This means that they won't crack, rot or warp. Instead, your new door will stay looking and working like new for years. Their impressive lifespan and classic appearance make composite doors an excellent alternative to traditional timber doors, which usually need more upkeep.

Bi-Folds & Sliding Doors

Open up your home with stunning patio and bi-fold doors. Create a seamless and stylish connection with your outside space.

Our aluminium bi-fold and patio doors are sourced from market leading suppliers, Smart and Reynaers Aluminium. These doors can open up an entire wall, creating a beautiful, unimpeded panorama. Even when the doors are closed, slim sightlines mean they still offer enhanced light and views. Whether you prefer the contemporary look of bi-folds or the elegance of patio doors, both provide a seamless connection to your garden. This link is perfect for embracing nature on sunny days. At the same time, insulation and weatherproofing will protect you from wind and rain.

“TOTALLY

PROFESSIONAL”

- JEFF, DORSET

At Forest Edge Home Improvements, we believe that individuality gives a home character. That is why our bi-fold and patio doors can be customised to suit all tastes and needs. They are available in an unrivalled range of colour and finish options, spanning from sophisticated pastels to eye-catching bold shades. You can even choose the number of door panes and the way they open, to make the most of your space.

Delivering a perfect balance of appearance and performance, our patio and bi-fold doors are impressively strong, secure and efficient. The high-quality aluminium is very resilient and durable. This means the doors boast a long lifespan. The aluminium profile is also thermally broken, to help keep heat in your home. The inherent strength of aluminium is enhanced with multipoint locking. This combination creates an effective deterrent and defence against burglars. Our first-rate bi-fold and patio doors will protect and improve your home for many years. So what are you waiting for, get in touch today and take the first step towards your dream home.
